

ASCE HOUSTON BRANCH PARTICIPATES IN CAREER DAY

ASCE recently had the opportunity to participate in career day at Harmony Science Academy. ASCE's Uttam Karmaker delivered a presentation on a career in engineering that was received extremely well by the students. By participating in career day, ASCE hopes to help further promote STEM activities in our local schools. Career day helps to provide a link between the classroom and the actual workplace by giving the students exposure to the expectations of the industry as well as sharing the relevance of their coursework. Students see how their day-to-day problem solving, math, science, and team work skills are essential to building a successful career for the future. ASCE hopes to continue these career day presentations regularly over the next academic year.
