

Biography:

Kevin is a partner at BRAYN Consulting, where he leverages his experience in the design and construction industry to help businesses take advantage of federal and state tax incentives, credits, and deductions. He is an award-winning expert on sustainable design and construction, and licensed as a Professional Engineer in over 30 states.

Kevin graduated from the University of Houston with a B.S.C.E., where he served as the ASCE student chapter president. He interned at AEI Engineering, worked for Walter P Moore for several years, and has chaired several committees for the ASCE Houston Branch.
