

Devon Tiner is the Assistant Director of Building Standards for the City of Houston, a role in which he provides direct leadership and management of the Building Standards Group that is responsible for effective and efficient building plan review, issuance and close-out of building code permitting actions, issuance of certificates of occupancy, the Tenant Improvement Program, and in-progress construction project inspections and quality assurance in support of capital projects and major maintenance initiatives throughout the Houston Airport System (IAH-HOU-EFD). Devon also serves as the City Engineer for Houston Airports.

Devon has worked at Houston Airport System since 2015. Before moving to Houston, he was employed at Dallas-Fort Worth International Airport for 16 years as an Aviation Project Manager where he managed airfield and terminal infrastructure projects.

Devon earned his Civil Engineering degree from the University of Texas at Arlington in 2001 following his enlistment as a Petroleum Supply Specialist in the US Army. He has been a member of ASCE since 2000 holding various positions including President of the Fort Worth Branch in 2013 and was the Young Engineer of the Year in 2009.

Devon lives in Kingwood with his wife and 3 sons and enjoys fishing, running, and volunteering with Boy Scouts of America.
